Note Continued.

The Dy Com^r Bangalore D. on communicating with the Trustees of Rai Bahadur Arcot Narayanaswami Mudliar's Orphanage and the Srinivasa Mandiram Charities, as to whether they would take the 2 orphan minor girls in question into their institutions forward copies of replies received from them, to the effect that no girls will be admitted in the former and that the latter would accept the girls in case the Govt would provide the Mandiram with accommodation and a female servant.

He also states that the City Police have reported that a few respectable men in the City request that the said girls may be made over ^{to} them for care and protection and that he does not find any other alternative than to hand over the girls to the said persons who have come forward with their offer unless handing them over to the Wesleyan Mission is considered preferable.

The ages of the 2 girls, he adds, are about 6 years each.

Who are the "respectable persons" referred to, and whether the Dy Com^r is satisfied that they will be fit persons to be entrusted with the care of the girls are questions on which he feels may be asked. Submitted for orders.

REPORT.

THE HON'BLE COLONEL SIR DONALD ROBERTSON, LADIES AND GENTLEMEN.—

We, the President and Trustees of Rai Bahadur Dharmaratnakara Arcot Narrainsawmy Mudaliar's Educational Institutions in Bangalore, have much pleasure in placing before you a brief account of the administration of the said institutions during the year 1902-1903. Owing to disturbances unfortunately caused by the prevalence of plague, it was not found possible to hold the usual annual distribution of prizes for the past 3 years; but the progress, in those years, was duly reported to the Educational authorities, by whom it was deemed satisfactory.

THE HIGH SCHOOL.

ATTENDANCE.

2. (a) We beg to premise by inserting, here, an extract from our report, dated 12th August 1899:—

“ The inspection of 1898 found 436 boys on the rolls, and “ the number continued to rise steadily, till, in September, it “ seemed as if we should soon reach the large total of 500. From “ that month, however, on account of plague, there was a “ rapid falling off both in strength and in daily attendance; on “ the 5th November, the Headmaster reported only 53 boys “ present and 7 of the masters absent, and it was deemed expedient to close the School from 7th November 1898 to 1st “ February 1899.”

Since then the School attendance was fluctuating owing to plague. At the close of every year, when the epidemic showed

THE COMMERICAL CLASSES.

4. In the Book Keeping and Commercial Correspondence Classes, there were 15 pupils, and the results for the past year are noted below :—

	Examined.	Passed.
Commercial Correspondence		
(Elementary) ...	4	2
Book Keeping (Elementary) ...	6	2
Book Keeping (Intermediate) ...	1	1

THE DRAWING CLASSES.

5. Drawing, which is a compulsory subject under the Educational Rules, is taught in all the classes of the High School, without levying any extra fee. At the last Government Examination, held in the hall of the High School, in November last, 4 appeared for the Elementary Grade out of 7 names registered, and the results are not published yet.

CHANGES IN THE STAFF

6. There have been a few vacancies in the tutorial staff, owing to resignation, death and other causes, which have been suitably filled up.

EXAMINATIONS PASSED BY MASTERS.

7. In accordance with the recommendation of the Inspector of Schools, the masters were told that they must qualify themselves by passing the examinations prescribed in Teaching and Method, and the necessary books were purchased for the School Library. Mr. Raghava Chāri, the Acting Second Assistant, took the L. T. Degree last year. Mr. Venkappa, the 5th Assistant,

passed the theoretical examination for a Teachers Certificate, and will appear for the practical portion at the next inspection. Of the other Masters, two are already qualified: three have not had sufficient service to entitle them to go up for the examination; while the remainder have, by length of service, obtained Approved Teacher's Certificates.

LIBRARY.

8. An addition of about 200 volumes including the "Library of Famous Literature" (a complete set of 20 volumes) has been made to the Library since the publication of the last report, thus bringing the number of volumes at present to nearly 750, treating on Science, Philosophy, Religion, Geography, Mathematics and General Literature. Students of the High School are allowed to use the books during School hours and also at home. Books for reference, &c., are largely used by the teachers.

DRILL. SPORTS AND GYMNASIUM.

9. The classes continue to be regularly drilled, and special attention is paid to Cricket and Foot-ball games, which afford healthy amusement and exercise to the boys. The difficulty experienced, in securing a suitable play-ground adjacent to the school building, referred to in the last Report, stands in the way of promoting athletic sports to the full extent desirable.

INSPECTION.

10. The Inspector of Schools visited the School in June 1902, and remarked as follows:—

"The tone and discipline of the institution and the dress and manners of the pupils are all very satisfactory. The Matricula-

"tion results continue to be bad, but, nevertheless, the impression
 "produced by an inspection of the School is very favourable to it
 "on the whole. Possessing a fine building with more accomoda-
 "tion, perhaps, than is actually needed, well-furnished and
 "well-equipped, and, with a large attendance, the School might
 "develope into one of the most flourishing institutions in
 "Bangalore."

RECEIPTS AND EXPENDITURE.

11. The receipts and expenditure of the High School are shown in the following Abstract:—

<i>Receipts.</i>	RS.	A.	P.

The question of slightly raising the school fees, simultaneously with other Institutions in Bangalore, is under consideration.

TECHINICAL SCHOOL.

NEW BUILDING.

12. This institution has, since the last report, been transferred to a new building, acquired for its location, at a cost of Rs. 8,766. The Government was pleased to sanction a sum of Rs. 2,922, the remainder having been generously provided by the Founder. Instruments, books and furniture were purchased at a cost of Rs. 2,756-0-0, a moiety of which was kindly contributed by Government.

CLASSES TAUGHT AND PROSPECTS.

13. At present only 2 classes are opened (one for Sub-Overseers and the other for Draughtsmen and Surveyors) and it is intended to further devolope this important branch, by adding a Maistry class and providing for the teaching of Carpentry, Smith's work, etc. The present financial condition, however, of this institute does not, the Trustees regret to say, admit of the speedy extension of the scope of its usefulness. It is in contemplation to approach the Government with a request, to substantially increase the present monthly grant of Rs. 50, having regard to the fact, that this is the only institution of the kind in the Civil and Military Station, and, as such, is deserving of special consideration and support. In this connection, the Trustees beg to bring to notice, that about 30 students pass out annually out of this institute, qualifying themselves for appointment as Sub-Overseers, Maistries, Draughtsmen and Surveyors, and all, who have thus passed, have, hitherto, found no difficulty in getting suitable appointments under the Mysore Government and elsewhere. Two natives of Coorg, who received their education in this School, are now employed as Surveyors on Railways, one in East Africa on Rs. 175, and the other in the Straits Settlements on Rs. 100. On an average there has been one Eurasian Student a year; and, at present, there are two on the rolls, one from Mysore and the other from Bangalore.

14. There are as many as 50 Sub-Overseers on Rs. 40 and 50, about 20 Draughtsmen on Rs. 20 and 30, and about 20 Maistries on Rs. 20, employed in the Mysore State, and the services, of some of them, are utilised on works connected with the Cauvery Electric Water Power Scheme, the Marikanave and Tungabhadra and other Projects.

AVERAGE ATTENDANCE.

15. The number on the rolls of the Technical Institute was 32, and the average daily attendance 24.2. The plague has, also, affected it, especially at the close of each year.

RESULTS OF PUBLIC EXAMINATION.

INSPECTOR'S REPORT.

18. The Inspector of Schools, during his last inspection, reported as follows :—

“ Staff—Efficient. Discipline and tone—Good. Dress and Manners—Good. I visited this School on the 9th July. It is held in a commodious and suitable building lately acquired for the purpose by the Managers. The results of the various Government Examinations were good and shew that the Masters attended to their work properly.”

THE ULSOOR BRANCH SCHOOLS.

19. These Schools have not been able to recover the strength they had, prior to the appearance of plague. The disease has not only reduced their numerical strength but has also deprived the boys of the Primary School of its Infants' Class teacher, Mr. Veerannah.

The vacancy caused by his premature death was filled up by the employment of one Mr. V. Subbaraya Mudr. The selection of a suitable person for the Infants' Class is a matter of peculiar difficulty, as the incumbent has to be acquainted with no less than four languages, besides possessing resources necessary to successfully manage the class in question. The number of passes, on the whole, is uniformly satisfactory, as 8 out of 14 passed in the Primary Examination with one in the first-class.

20. In the Thirukulathar School, Mr. A.P. Dhurmalingam's death caused a vacancy, which was filled up by the appointment of Mr. S. Venkatramana Iyer. Another vacancy caused last year, owing to the death of one Mr. Muthusawmi Mudaliar, has not as yet been filled up, owing to the falling off in present total strength. As the number of pupils increase a suitable man will be entertained. Three pupils went up from this school and 2 passed. The boys of this Institution, who belong to a backward and neglected class, were clothed and fed by the generous donor on the occasion of our beloved Emperor's illness, and they were asked to join in offering prayers to Heaven for the speedy restoration of His Majesty's health. The boys were again similarly treated on His Majesty's Coronation Day.

THE GOVINDAMMAL GIRLS' SCHOOL.

21. This school, established in 1886, in memory of the lamented death of the Founder's beloved wife and called after her name, suffered equally with the others from the effects of plague, and though the attendance was much diminished thereby, it is encouraging to observe, that its present strength is nearly 110. The staff is efficient and it is proposed to introduce into it as many qualified teachers as are available in course of time. Classes are taught up to the fourth standard, and one girl passed the Primary examination this year. The girls are withdrawn from school, by their parents or guardians, after they attain the usual marriageable age, when custom precludes their going out freely and compels them to take an active part in household work. Very often, girls of 11 and 12 years of age discontinue their studies, which is the chief reason why it is impossible to prepare a larger number for the Primary examination. Music is taught by a competent person, and it is hoped that, with the keen interest the founder takes in Female Education, the usefulness of this institution and the scope of its work will be enlarged and promoted slowly and steadily. The school gets a grant of Rs. 15 a month while the expenses come to Rs. 45. Thus, Rs. 30 a month is met by the founder from his private funds. The Prize distribution for this school was not held for the last 6 years, owing to circumstances over which we had no control, and it was intended to have this year's distribution separately; but, as a step in the progress of reform, the Trustees have arranged to hold the distribution simultaneously with that of other branches.

ORPHANAGE.

22. The Trustees regret to state, that they have had no response from any of the Deputy Commissioners of Districts in the Mysore Province or Collectors of some of the Districts in the Madras Presidency, who were written to, with a view to help us in securing fit objects for reception into the Orphanage. Notwithstanding the distress caused by drought and plague, there is, apparently, a disinclination, either on the part of the destitute children, or their temporary guardians, to migrate from their native places and to join a home which is far away from the villages to which they have been accustomed from their birth.

CONCLUDING REMARKS.

23. We beg to add that, although the conception of a good act, beneficial to the happiness of one's fellow creatures, is not invariably followed by a speedy resolution to carry it into effect, it is a source of gratification to note, that the founder of these Institutions has had the moral courage to accelerate the accomplishment of his good intentions, during his own life time. He has, also, had the good fortune of witnessing, during the past 25 years, the progress made, and it is sincerely hoped, and as fervently prayed, that he may be spared for many years to come, to further witness the most abundant results of the growing institutions, established, by his praiseworthy benevolence, in the cause of education.

24. We must not omit this opportunity to express, to the Head Masters of the above-mentioned institutions and their Assistants, our appreciation of their diligent and zealous labours during the past year.

25. We cannot close this Report without offering our best thanks to you all, for the interest you have evinced in these Institutions by your kind attendance here this evening, and without our gratefully acknowledging the generosity of those who have been pleased to contribute special prizes for distribution among the most deserving pupils.

REPORT.

THE HON'BLE COLONEL SIR DONALD ROBERTSON, LADIES AND GENTLEMEN.—

We, the President and Trustees of Rai Bahadur Dharmaratnakara Arcot Narrainsawmy Mudaliar's Educational Institutions in Bangalore, have much pleasure in placing before you a brief account of the administration of the said institutions during the year 1902-1903. Owing to disturbances unfortunately caused by the prevalence of plague, it was not found possible to hold the usual annual distribution of prizes for the past 3 years; but the progress, in those years, was duly reported to the Educational authorities, by whom it was deemed satisfactory.

THE HIGH SCHOOL.

ATTENDANCE

2. (a) We beg to premise by inserting, here, an extract from our report, dated 12th August 1899:—

“ The inspection of 1898 found 436 boys on the rolls, and “ the number continued to rise steadily, till, in September, it “ seemed as if we should soon reach the large total of 500. From “ that month, however, on account of plague, there was a “ rapid falling off both in strength and in daily attendance; on “ the 5th November, the Headmaster reported only 53 boys “ present and 7 of the masters absent, and it was deemed expedient to close the School from 7th November 1898 to 1st “ February 1899.”

Since then the School attendance was fluctuating owing to plague. At the close of every year, when the epidemic showed

its virulence, there was a temporary falling off in the strength. We are, however, happy to announce that, on the whole, the progress of the School has not been seriously retarded. The following figures give the strength in the month of December, for the three years 1899-1901.

				Strength
December	1899	...	...	338
„	1900	...	...	388
„	1901	...	...	395

THE PRESENT STRENGTH.

2. (b) In December 1902, there were, on the rolls, 347 pupils, distributed as shewn under :—

Brahmins	...	...	...	41
Vaisyas	..	...	...	13
Other Hindus	...	...	...	272
Mahomedans	...	...	...	19
Native Christians	...	...	...	2
Total...				347

The average daily attendance was 282.

EXAMINATION RESULTS

3. Ten students appeared for the Matriculation Examination of whom 4 passed in the 2nd Class. For the Lower Secondary Examination, 17 names were registered, but only 15 appeared, of whom 8 passed. At the Primary Examination, 25 passed out of 35, with 9 in the first class. These results, notwithstanding the adverse circumstances above adverted to, may be considered fairly satisfactory.
